

JOIN Healthy Start Enhanced San Bernardino's Infant Mortality Consortium! Building a Healthier Community Together.

Supporting Healthy Pregnancies Through Collective Action

What is the Infant Mortality Consortium?

- Partnering with community to address the non-medical drivers of perinatal health and wellness.
- Monthly meetings with virtual participation options to ensure inclusivity and opportunities for action planning and training sessions.

Who Can Participate?

- Individuals with lived experience with birth, parenting, pregnancy/infant loss.
- Anyone planning to become pregnant
- SB County residents, clinics, community centers, faith-based organizations, hospital systems, birth workers, and other community partners.
- HSE-SB program participants (current and graduates).
- Individuals passionate about improving perinatal health outcomes.

What Will You Do?

- Engage in collective action to address the everyday realities that impact community health.
- Contribute ideas, expertise, and resources to develop comprehensive solutions.

Benefits of Participation:

- Access to training opportunities on legislative advocacy, housing initiatives, and more.
- Networking opportunities with like-minded diverse community members, organizations and experts.
- Gift cards available for active participation to honor member's time and commitment (subject to eligibility).

Upcoming Focus Areas:

- Housing initiatives
- Addressing poor air quality risks through research.
- Eliminating barriers to access to care through transportation solutions.
- Other needs as identified.

When and Where?

- Monthly meetings with virtual participation options for wider participation.
